Subject: Discuss Path Forward for Streamlined NSR Permitting on U&O Reservation
Options for Streamlined Permitting of New and Modified True Minor ONG Sources +CS.docx

Attached is a draft paper discussing options for streamlined permitting of new and modified true minor sources on the U&O Reservation. It already incorporates comments and discussion with Chris Stoneman, who will be out next week. Likely it will require significant trimming, as it is currently 4 pages, but wanted to give everyone something to react to. The background is long, but was not sure how much background Deb would need, and may be especially useful for Sarah Dunham, who has no background on the issue.
